

# ZUZU TOKEN (BEP-20)

Community-driven cryptocurrency on Binance Smart Chain (BEP-20)

ZUZU Official Whitepaper 2025 — August Edition

## Overview

ZUZU Token (BEP-20) is a community-driven memecoin developed to unite and empower crypto communities globally. The project focuses on collaboration, transparency, and growth in the decentralized Web3 ecosystem.

## Mission & Vision

ZUZU's mission is to connect creators, developers, and enthusiasts under one united crypto community. Our vision is to promote inclusivity, transparency, and innovation within the blockchain space, providing newcomers and experienced users a common platform for engagement and growth.

## Deflationary Burn Program

Starting November 1, 2025, ZUZU will launch an 18-month continuous burn program. Each month, 2% of the total supply will be burned, totaling up to 36% by the end of the cycle. This ensures a sustainable supply reduction, reinforcing long-term token value and community confidence.

## Tokenomics

- Total Supply: 10,000,000,000 ZUZU • Burn Program: Up to 36% (2% monthly over 18 months) Remaining 64% Allocation: • 25% — Community Support (rewards, engagement, and incentives) • 15% — Liquidity Pool (for trading stability) • 10% — Team & Operations (locked) • 10% — Development & Future Growth (locked) • 10% — Marketing & Public Awareness • 4% — Reserve Fund (emergency and liquidity backup)

## Governance & Transparency

ZUZU Token is built on transparency and decentralized management. All source code and updates are open-source and available for public audit at GitHub: <https://github.com/ZUZUELIFROG/ZUZU>
